

Diisopropyl adipate (DIPA)

English name: Di isopropyl Adipate

CAS NO: 6938-94-9 121879-14-9

Structural formula: $C_3H_7OOC - (CH_2)_4 - COOC_3H_7$

Molecular formula: $C_{12}H_{22}O_4$

Molecular weight: 230.3

Quality standard:

Index name	index
appearance	Colorless transparent oily liquid
Color (APHA) \leq	20
Acid value (KOH mg/g) \leq	0.15
Content (GC) % \geq	99.5
Moisture (wt), % \leq	0.15

Properties and uses: This product is colorless transparent oil liquid, almost tasteless. Used in medicine, spices and daily chemicals.

Packing and transportation: 200L iron drum, net weight 190 per barrel, or canned. This product is a general chemical. Keep away from heat source and fire source during storage and transportation. Rain and water proof.
